Buen día ingeniero:

Anexo la replicación de errores en ambiente local para reenvío a Ícaro:

1) Acceso al portal:

<http://192.168.50.200:8889/>

Inline image 1

2) Acceso al punto de acceso para usuarios y creación de registros (checklist):

<http://192.168.50.200/entrypoint/>

Inline image 2

3) Ingreso al módulo de Checklist (acá es donde se presenta el error):

<http://192.168.50.200/checklist>

Inline image 3

Inline image 4

Quedo atento a sus observaciones y comentarios

Muchas gracias

Ing. Jaime Alberto Gutiérrez Mejía
Contratista IEBAVH

Hi Ícaro.

Using all your indications, we can reach the following

Portal:

<http://192.168.50.200:8889/>

Inline image 1

2) We can access to:

<http://192.168.50.200/entrypoint/>

Inline image 2

3) But, when we want to access this module:

<http://192.168.50.200/checklist>

Inline image 3

We encounter this issue.

Inline image 4

What we are doing wrong? Or when we can parametrize to grant acces (we did search that connect.js into checklist code and assesments code)?

Thank you so much, and we really appreciate your help.

Ricardo & Jaime

Hello Ricardo. When you run on your server docker ps, what is the result?

Probably this application is not running properly.
